ABOUT ME

I am a motivated and detail-oriented Computer Technology student with a passion for learning and solving technical challenges. I have a strong foundation in programming, software development, and IT systems. My goal is to apply my technical skills and knowledge to contribute to innovative projects and gain hands-on experience in the tech industry. I am eager to collaborate with diverse teams and continue expanding my expertise in computer science and technology.

CERTIFICATIONS

- Certified in Learnathon 2023-2024
- Introduction to MONGODB
- Certified in DEEPRACER 2023
- 100+ Coursera Certifications

PROJECTS

Automated Backup System

Developed an automated backup system to securely back up important files and data on local machines to cloud storage (Google Drive, Dropbox). Implemented scheduling for regular backups and notification alerts in case of failure.

Smart Home IoT System

Built a prototype of a smart home system where devices like lights, thermostats, and security cameras can be controlled remotely through a mobile app. Integrated sensors to monitor environmental conditions like temperature and humidity.
